Okay so I'm new to VS, and I've been working with Visual Basic since 2003. I'm using VS 2013 Ultimate Edition. I just downloaded a sample project called "Easy Bluetooth Chat" with the sample code below. Module Module1 Sub Main() Dim socket As TcpClient = New TcpClient() 'socket.Connect(IPAddress.Parse("192.168.1.152"), 4007) socket.Connect(IPAddress.Parse("192.168.1.101"), 8001) Dim stream As NetworkStream = socket.GetStream() stream.Write("Hello, server!") Dim recvstream As NetworkStream = socket.GetStream() Using reader As DataReader = New DataReader(recvstream) Console.WriteLine("Got: {0}", reader.ReadString()) End Using Console.Read() End Sub End Module I then right click on the.vb file, click open with, and then select Visual Studio 2013. I go through all the steps, since I don't have any extensions, and close and re-open the file. I get a blank white screen, and the keyboard is no f678ea9f9e
