## About This Game

One year after the plasma nuclear annihilation on Earth, it became clear that there is no rescue in sight and most survivors gave up the last hope. But Elon believes in the salvation of the dead planet and follows an indefinable buzz into drains. In an abandoned underground nuclear bunker, he encounters unexpected at a huge, active power generator, which leads him to a strange factory. There he uncovers the conspiracy of the Apocalypse - armored cyborgs and robots, that want to take revenge on the planet Earth. Can Elon save the world with his robot friend Steel from ultimate destruction and prevent the spread of cyborgs?

MainFeatures:

- Apocalyptic Gameplay
- Fully controlable NPC friend: Steel
- Many Weapons
- Funny Conversations
- Easter Eggs
- a very strong atmosphere
- much music
- a sad world
- very EVIL Cyborgs

Feeding Frenzy 2 Deluxe by PopCap Games is a very simple concept that becomes surprisingly challenging as the game wears on. The basic premise is you begin as a small fish and must eat like sized or smaller fish until you grow big enough to eat the next largest fish. The games graphics are bright and cheerful, the music appropriate and not aggravating, and the scoring screens even offer a little bit of fun information about fish. While this game would be perfect for kids, the gameplay is brisk enough to be enjoyed by adults as well. My only minor concerns with the game are the lack of Steam Overlay support, and a no Vsync option, which for high end systems may lead to some minor graphic tearing. Altogether though, the game is fun and inexpensive and well worth your gaming dollar.. A really fun challenging game! for the price it is totally worth it! I don't think i have played a game like this ever before. It can be frustrating, but rewarding when you make progress. There is one glitch i found where you fall through the floor, but overall it plays really well. I recommend it!. A colour tile matching game. It controls pretty well, its got a nice minimal but not too minimal aesthetic, the sound and music is great, and its pretty polished all round.

It is quite easy and even at its low price point you might want a bit of a sale as its only about an hour of puzzling, but its pretty relaxing to play and enjoy while it lasts.. Play with friends. Coop experience and lot fun guaranteed. One of the best examples when idea becomes a mod and then a standalone game.. I really wanted to play this game but it stopped working after 2 bits of dialogue. I don't know why this is because I can play other games fine but I can't play this. It starts up alright but once I try to play, it just goes black. Hopefully, I can play this in the future.. Very nice and challenging bullet hell!. i hate that i bought it. Okay, So im not a very detailed game reviewer. But I played PS Home for about 4 Years and it was a awesome expirience, Atom universe's ideas are alot better in my opinion than ps home, "less micro transactions" than ps home so makes me feel better about playing. This game is going on the right track and I cant wait to see where it is going to be in the near future! :D. Original, funny, easy to play.

Too bad the first one is not available. :-(. Played the first game, had an agent killed, 2 more imprisoned and while interrogating an enemy spy, I pushed too far by accident and killed him. Relation with my employer came to an all time low, and I was fired with extreme prejudice.

5 Games later, loving it, hacking the country, sending my spy, black mailing enemy agency and provoking Mutually Assured Destruction world wide, just another day at the office.

It's like Tom Clancy the game from the high seat. This has tons of play a worthy successor to Out There.

---

I consider Alien Zombie Megadeath, the other game from developer PomPom, one of the best arcade games of the latest years. Unfortunately I cannot say the same for Astro Tripper. Presentation aside (it's even more basic than AZM) the game is basically a defender inspired shooter but it's extremely difficult and frustrating. There are three difficulty levels, easy, hard and extremely hard. I've played at hard difficulty (never played a game in easy mode in my life) and I haven't been able to finish the first training level after a dozen game overs. Enemies spawn everywhere, they shoot a lot, some of them collide with each other suddenly changing trajectory, the play area is extremely narrow and, just to add some frustration, you can fall over the play area so you must be extremely careful while maneuvering your ship. Being a defender clone you also have to press a button to flip the ship direction, easier said than done given the overall difficulty. In the end it's not a bad game, it's just badly calibrated and for this reason I could only recommend it to hardcore space shooter lovers. Go play Alien Zombie Megadeath instead..

Downloaded this game on a whim, DID NOT expect so many famous actors, voice actors, pop culture references! It was a pleasure to stream as my chat was able to pick out the different voices. So funny! Absolutely amazing well done game for 1996. Side note, there was a gay scarecrow in this game that predates Ellen & Will and Grace. Lewd jokes abound.. This game has cool style. BUT!!! I really can't understand why weapons change, how they change, what happens???

. Meh. Generic shooter.

Also, WTF, Flash???? What is this, 2002?. If you need a PC screen recorder, I recommend this one. Much better than FRAPS. (I can't comment on Dxtory, however.)
