The screenshot displays the GeoStructural Finite Element Analysis v17 software interface. The main window shows a cross-section of a tunnel in a soil profile. The tunnel is located at a depth of approximately 10m. The soil profile is color-coded by stress, with a legend on the right showing values from 0,0 to 8109,5. The tunnel is supported by a structure with a central vertical axis and two side supports. The software interface includes a menu bar (File, Edit, Input, Pictures, Settings, Help), a toolbar, and a status bar. Two windows are open: 'About the program' and 'Course of analysis'.

About the program

GeoStructural Finite Element Analysis - FEM
Analyses based on Finite Element Method
Program version : 17.11 (8.0) Activated, unlimited license.
Technical support : selectservices.bentley.com/en-us/
Bentley | © Fine spol. s r.o. | License | Authors | System

Bundle Name : GeoStructural Finite Element Analysis
License type : Activated, unlimited license.
User Name : Williams
Selectable modules : [-] Tunnel
 [+] Water flow
 [+] Surcharge
Application languages : Английский
Output languages : Английский

Course of analysis

Analysis of stage 2

Calculation step 1
