Active Desktop Recovery

Microsoft Windows has experienced an unexpected error. As a precaution, your Active Desktop has been turned off. To restore the Active Desktop, use the following troubleshooting tips:

- **Did your browser stop working, or did you restart your computer without shutting it down first? If so, click:**

- **Did you recently change your background to a web page? If so:**
 1. Right-click the desktop and then click **Properties**.
 2. On the **Desktop** tab, under **Background**, click the background you want.
- **Did you recently add a new item to your Active Desktop? If so:**
 1. Right-click the desktop and then click **Properties**.
 2. On the **Desktop** tab, click **Customize Desktop**.
 3. On the **Web** tab, under **Web pages**, clear the check box for the item that was added last.
- **Do you want to turn off your Active Desktop? If so:**
 1. Right-click the desktop and select **Properties**.
 2. On the **Desktop** tab, click **Customize Desktop**.
 3. On the **Web** tab, under **Web pages**, click to clear all the check boxes.
